

Shuhan Teng

Email: tengshuhan@152mail.com.cn | Tel: 86 - 13867893458

Location: Hong Kong SAR (HKID Holder) | Internship Duration: 6+ months, 4+ days/week

EDUCATION

The University of Hong Kong

Master of Arts in the Field of Translation

Hong Kong, China

Sep 2026 - Jun 2027

PROFESSIONAL EXPERIENCES

LianLian Global

Merchant Business Development Intern, Full-time

Hangzhou, China

Jul 2026 - Aug 2026

- Cross-Functional Promotion Coordination: Aligned Risk Control, Compliance, and Product teams on European merchant engagement standards, streamlining the 7-step workflow to 5 and cutting onboarding from 4 to 3 weeks. Coordinated 5+ functions to drive 12 European merchants through a full promotional onboarding funnel.
- Merchant Engagement & Campaign Enablement: Built a standardized KA onboarding SOP and searchable documentation system (100% case coverage, 30-second retrieval), enabling the team to activate merchant partnerships and co-promotion campaigns faster.
- Market Intelligence for Promotion Strategy: Tracked European payment-market trends and competitor tactics via store inspections and industry reports, delivering 12 weekly insight reports with 3 differentiated recommendations (2 adopted by the BD team) that shaped merchant-acquisition and promotional conversion pathways.

Ant Group

Business Operations & Data Analytics Intern, Full-time

Hangzhou, China

Apr 2026 - Jun 2026

- Large-Scale Event Execution: Planned and coordinated an international robotics competition across 50+ sessions with zero delays, owning participant, judge, and technical-team scheduling and on-site flow to maximize attendee experience.
- Cross-Functional Event Coordination: Liaised with 5 internal functions (Finance, Compliance, Procurement, Brand, Legal) on contracts, deliverables, and risk reporting, building the multi-team coordination backbone every events team needs.
- Audience Engagement & Operational Optimization: Built a data dashboard tracking registration conversion and resource use, producing daily and post-event reports. Identified bottlenecks via data analysis, drove 3 process optimizations that improved delivery efficiency by 30%. Coordinated 3 vendors and internal teams on venue setup and on-site guidance for 120+ participants per session, with Python-based testing ensuring zero-system-failure.

Hangzhou Daily - International Communication Center

Brand Operations & Content Planning Intern, Full-time

Hangzhou, China

Dec 2025 - Mar 2026

- User Growth and Content Operations: Managed a 1M+ follower overseas social portfolio, developing content strategies based on audience personas and platform algorithms. Increased engagement rate by 25% and organically reached 3.7M+ overseas users within 3 months, with the account ranking among China's top city-level international communication platforms.
- Offline Event Planning and Execution: Produced 10+ bilingual content pieces to support offline brand campaigns across heritage, tourism, and entertainment themes, generating 6.9M+ total impressions with a single post peaking at 500K+ views. Participated in on-site coordination and user interaction design, securing reposts from official overseas tourism boards.
- Data Analytics and Daily Reporting: Tracked engagement rates, follower growth, and impressions regularly, producing daily and weekly operational reports. Established a content performance evaluation framework that drove 200K+ net follower growth on a single project, validating the effectiveness of content strategies.

EXTRACURRICULAR EXPERIENCES

Huawei Cloud AI Tools Application & Evaluation

Dec 2022 - Mar 2023

- Model Evaluation: Completed the DevRun NLP project, building an AI poetry translation evaluation framework covering 130 bilingual poems and systematically compiling translation quality data (BLEU scores and human ratings).
- Experience Optimization: Established a double-blind comparison mechanism between human translations and AI-generated translations; produced evaluation reports with 10+ actionable recommendations, identifying failure cases such as complex sentence structures and imagery loss.
- Insight Delivery: Generated 3 structured reports delivered to the algorithm team, clarifying model iteration priorities and developing a reusable AI + language evaluation methodology.

SKILLS & INTERESTS

Languages: Chinese (native), English (fluent; IELTS 8.0), Cantonese (daily conversation).

Technical Skills: Advanced proficiency in MS Office Suite (including Vlookup and functions); SQL for data analysis; AI-native workflow development (Codex, WorkBuddy, Kiro); proficient in video editing and graphic design using Premiere Pro and Photoshop.
